**Welch Allyn FlexiPort** Blood Pressure Cuffs  
The true standard in blood pressure cuff standardization.

## Why Choose FlexiPort Cuffs?

Save time when you standardize with a cuff solution that works across your blood pressure devices and patient monitors.

Invest in an easy-to-use and affordable blood pressure cuff solution. The single-point **FlexiPort** snap connection was designed to simplify connectivity, reducing the hassle of needing multiple cuff tubes and connectors. And since accurate blood pressure readings rely on the right cuff size for both infants and adults, you can easily size cuffs up or down for each patient.

**Welch Allyn FlexiPort** Blood Pressure Cuffs can help hospitals improve workflow efficiencies, financial outcomes and enhance patient safety. Concerned about cross-contamination or disinfecting? We also offer disposable **FlexiPort** cuff solutions.

### CASE STUDY:

## Oklahoma Heart Hospital

#### Situation:

Converted from traditional style cuffs and standardized with **FlexiPort** Disposable Cuffs across two campuses.

#### Results:

By switching to **FlexiPort** Disposable Cuffs and enabling one cuff to stay with the patient for their entire stay, Oklahoma Heart Hospital recognized a \$40,000/year savings.

#### Testimonial:

"We've been very pleased with our conversion to the **Welch Allyn (FlexiPort)** Disposable Blood Pressure Cuffs. They are faster to inflate and easier to connect with fewer leakage problems than our previous cuffs."

**Matt Fay, Materials Manager, Oklahoma Heart Hospital**

Source: Based on an independent life cycle analysis conducted by The Center of Sustainable Production at Rochester Institute of Technology comparing FlexiPort raw disposable cuffs to traditional Trimline disposable blood pressure cuffs and traditional EcoCuff Single Patient Use cuffs when used in a one-cuff-per-patient-use model.

## How Can FlexiPort Cuffs Help you?

### Enhance Patient Safety

**FlexiPort** Cuffs can be used with virtually any blood pressure device, making it easier to find the proper-sized cuff for your patient to help prevent miscuffing.

### Improve the Bottom Line

**FlexiPort** Cuff standardization can help reduce excess inventory costs by up to \$140k, lowering cuff inventory levels as much as 90%.\*

### Increase Staff Satisfaction

The single-point **FlexiPort** connection can improve nursing workflows, delivering a more reliable connection system and fewer complaints from hospital staff.

### Reduce Risk

**FlexiPort** Cuff technology offers hospitals options that facilitate single patient use to help reduce the risk of cross-contamination.

\*Savings based on actual standardization at Grady Health System, Atlanta, GA.

# Simplify and Save with Standardization

## **FlexiPort** Blood Pressure Cuffs: The Only True Standardization Solution

**Welch Allyn FlexiPort** Blood Pressure Cuffs offer a true cuff standardization solution for your facility, allowing you to use one cuff on most electronic and manual blood pressure devices, even those not manufactured by us. **FlexiPort** Cuffs not only streamline workflows by making it easier for caregivers to find and change the right cuff, but also reduce part numbers by up to 90 percent, simplifying inventory and ordering.

## Why Standardize with FlexiPort Cuffs?

- Streamline SKUs and inventory
- Improve consistency across your facility
- Helps clinicians simplify workflows
- More cuff options than other providers
- Options that help reduce environmental impact

**The most comprehensive cuff options to match your needs.**

**WELCH ALLYN**

## **FlexiPort EcoCuff** Single Patient Use Blood Pressure Cuffs

**WELCH ALLYN**

## **FlexiPort Disposable** Blood Pressure Cuffs

**WELCH ALLYN**

## **FlexiPort Reusable** Blood Pressure Cuffs

One cuff. One patient. One true solution.

## WELCH ALLYN FlexiPort EcoCuff Single Patient Use Blood Pressure Cuffs

Traditional single-patient-use cuff solutions can be expensive, wasteful and difficult to implement. The innovative EcoCuff single-patient-use cuff design helps hospitals reduce the risk of cross-contamination with technology that makes it simple to implement a single-patient-use cuff model, while at the same time helping to control costs and the hospital's environmental impact.

---

True standardization meets reduced cross-contamination.

## WELCH ALLYN FlexiPort Disposable Blood Pressure Cuffs

A reliable disposable cuff solution, **FlexiPort Disposable Blood Pressure Cuffs** deliver value to hospitals by combining the benefits of **FlexiPort Cuff** technology with reduced risk of cross-contamination that comes with implementing a single-patient use model.

---

True standardization—time after time.

## WELCH ALLYN FlexiPort Reusable Blood Pressure Cuffs

Affordable and easy to use, Welch Allyn FlexiPort Reusable Blood Pressure Cuffs offer all the advantages of **FlexiPort Cuff** technology — including simplified connectivity — in a dependable, durable design.

# Standardize Your Facility With These Three Easy Steps:

## 1. Standardize 2. Choose Size 3. Select Style

### Step 1

Attach FlexiPort fittings to all your blood pressure devices.

### Step 2

### Step 3

Size	Reusable (each)	Disposable (20 cuffs/box)	Single Patient Use (50 cuffs/box: 2 boxes/case)
Small Infant 6	REUSE-06	SOFT-06	
Infant 7	REUSE-07	SOFT-07	
Small Child 8	REUSE-08	SOFT-08	
Child 9	REUSE-09	SOFT-09	ECOCUFF-09
Small Adult 10	REUSE-10	SOFT-10	ECOCUFF-10
Adult 11	REUSE-11	SOFT-11	ECOCUFF-11
Adult Long 11L	REUSE-11L	SOFT-11L	
Large Adult 12	REUSE-12	SOFT-12	ECOCUFF-12
Large Adult Long 12L	REUSE-12L	SOFT-12L	
Thigh 13	REUSE-13	SOFT-13	

## Neonatal Soft Disposable Cuffs\*

Product Code	Size	1- Tube (10/box)	2- Tube (10/box)
Neo-1-1	Neonate size 1	●	
Neo-2-1	Neonate size 2	●	
Neo-3-1	Neonate size 3	●	
Neo-4-1	Neonate size 4	●	
Neo-5-1	Neonate size 5	●	
Neo-1-2	Neonate size 1		●
Neo-2-2	Neonate size 2		●
Neo-3-2	Neonate size 3		●
Neo-4-2	Neonate size 4		●
Neo-5-2	Neonate size 5		●

\*Neonatal cuffs do not feature FlexiPort technology.
