Hillrom...

vs. SmartVest® SQL® System

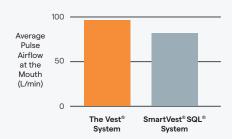

Design Matters When Selecting an Airway Clearance System

The Vest® System with True Flow™ design includes a uniquely designed airflow generator that delivers a comfortable, consistent air volume to the garment.

This results in predictable airflow performance.¹

Average

Airflow at the

Mouth (L/min) 12% more airflow¹

True Flow[™] Design Delivers More Airflow

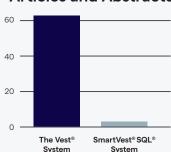

The Vest® System by Hillrom has a True Flow™ design that results in **12% more airflow**.¹

Airflow bias is required for appropriate secretion movement.^{2,3}

True Flow[™] Design Delivers Airflow Performance

When settings of 10 and 15 Hz are used, The Vest® System provides an average of 14% more airflow than the SmartVest® SQL® System.¹

Peer-Reviewed Clinical Articles and Abstracts

evidence⁴

of other airway clearance systems combined

Proven Clinical Outcomes

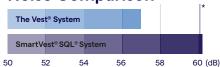

Currently in its 5th generation, The Vest® System has more than 25 years of peer-reviewed clinical articles. In one study, **94% of patients** who used The Vest® System had better than expected lung function scores after an average of 22 months based on the previous two years of manual CPT.⁴⁻⁷

The Vest® System by Hillrom with True Flow™ Design for Proven Performance

Sounds 30% quieter

True Flow Design results in a quieter environment. 9, 10

Noise Comparison

^{*} A comfortable hearing level is typically considered at 60 dB and lowe

Maintenance Free Operation

No need to hassle with periodic filter changes.8

Multiple garment options in a wide range of sizes:

- C3[®] Machine Washable/Dryable garment with soft brushed fabric and DuPont[™] Teflon[®] fabric protector
- Classic Full, Chest, and Wrap garment styles also available

Hillrom offers world class customer service and cost effective access to therapies.

Highly rated network of service professionals¹¹

900 payers

250 government payers

700 diagnosis codes covered¹²
